Heya!

So there's quite a lot to think about here but I think it's broadly really good! I am tired so not sure if I am making sense but I hope some of this is helpful, haha

I do think (as you kind of acknowledge) that perhaps there might be some redundant info — the poster is maybe a little wordy and I think maybe you could cut a fair bit and still tell people everything they need to know. I added some comments on the attached PDF but take 'em or leave 'em!

I'd hook people in with a somewhat simpler poster (I really like the design though!) and then maybe provide them with more info once they scan the QR code.

I like the way you've broken the form into a number of pages so it's not too much content at once, but again could it be shorter/simpler at all?

Happy to chat more about this on Thursday if useful 😊 I am curious about how you'll run the session, so if you're up for talking it through I'd be happy to be a sounding board?

Emma

Hello Emma,

Many super thanks for agreeing to do this. I really appreciate it.

Ok, so this is the poster that will circulate to recruit participants, as well as an email I will have to send around, and perhaps I will also go around some classes to show my face. Room number and date are still to be confirmed - also, 5£ vouchers and teas/biscuits + resources for the event will depend on whether I get the EDI funds (still waiting for a final response).

give their consents, they will be sent a link to [this Padlet](#), which will be used during the SIG but also as a tool for collecting experiences before the event - if anyone feels brave enough to upload anything   
[Image removed by sender. 😊] If you want/can have a look at that too, just to see if it makes any sense, maybe..that would be super 😊

Let me know if you have any issues with the links.

I'd love to know your thoughts on content, structure, missing/redundant info and staff like that, and or if you find any friction/issue with the process/anything that comes to mind [Image removed by sender. 😊]  
[Image removed by sender. ❤️]..

Thanks again for agreeing to help with this. I really appreciate it!

Love  
A
